

Frontiers in Gynecological Endocrinology

Ovarian function and reproduction: from needs to possibilities

.....
WINTER SCHOOL 2015

**MADONNA DI CAMPIGLIO
ITALY JAN 28-31 2015**

<http://winter2015.isgesociety.com>

In order to better focus on the educational issues the ISGE decided in 2010 to create its own School. The International School of Gynecological and Reproductive Endocrinology (ISGRE) fosters education and clinical application of modern gynecological endocrinology throughout the world by organizing high-level, highly focused residential courses twice a year, the Winter and the Summer Schools. World renowned experts are invited to provide their clinical experience and their scientific update to the scholars, creating a unique environment where science and clinical applications melt to provide the definitive update in this continuously evolving field.

FORMAT OF THE SCHOOL

The teaching course, will be held in 4 full days with 32 lessons:

- 4 lessons in the morning (08:00-12:00)
- 4 lessons in the afternoon (16:00-20:00)

Each lesson will be of 35/40 minutes + 15 min discussion.

Official Language

All the lessons will be in English.

No simultaneous translation will be provided.

COVERED TOPICS

- Genomics and ovarian response
- Ovulation induction and new compounds
- Endocrine factors and reproductions
- AMH / ovarian aging
- PCOS
- Contraception
- Premature ovarian insufficiency
- Healthy female aging (menopause)

CHAIRMEN OF THE COURSE: Tarlatzis Basil (GR), Genazzani Andrea R. (IT)
